- CLUE 2:** The Indian-born naturalised Canadian citizen boasts two National Awards, and was awarded the Padma Shri in 2009
- CLUE 3:** While studying martial arts in Bangkok, Thailand, he also worked as a chef and a waiter

**ANSWER: AKSHAY KUMAR.** The 53-year-old actor has wrapped the shooting of 'Bell Bottom', making it the first film in the world to start and finish during the pandemic

## DHONI ONLY INDIAN WITH NO DUCK IN 100 consecutive T20 innings

**M**S Dhoni has registered yet another feather to his illustrious cricket career by becoming the only Indian and fifth overall batsman to play 100 or more innings without scoring a duck in the shortest format of the game. In other words, MS has not gone back to the pavilion without scoring a run since 2015. In the last game against Hyderabad, he played his 100th consecutive innings without a duck.

- The number 1 position on this list is held by West Indies power-hitter **Chris Gayle**, who has played a record 145 T20 innings without scoring a duck (2012 to 2016)
- The second place goes to Sri Lanka's **Dinesh Chandimal** with 106\* innings (2009-present)
- He is followed by Australia's **Shaun Marsh**, who has played 102 innings (2012-2019)
- South Africa's, **JP Duminy** is next with 101\* innings to his name (2014-2019)

## US POLLS

# WHAT IF DONALD TRUMP CAN'T RUN?

**P**resident Donald Trump testing positive in the coronavirus test has raised the possibility, however remote, that he could become incapacitated. So, what's the scenario? The US Constitution has put in place a plan of succession to ensure that the nation is protected from adversaries and internal conflict, when the elected president cannot serve...

- The US Constitution makes it clear that the **vice president** is first in line to succeed the president, should he or she die in office, and can step in to take on the duties of the presidency temporarily, should the commander in chief become incapacitated

- The US Constitution leaves it to the **Congress to decide what should happen, if the vice president also dies or cannot serve;** several laws have been enacted to lay out the contingencies

### WHAT IF THE PRESIDENT IS TOO ILL TO PERFORM HIS DUTIES?

Under the 25th Amendment, ratified in the 1960s to clarify presidential disability and succession planning, Presidents can voluntarily designate powers to their vice presidents, if they become seriously-ill or are unable to perform their duties

### CAN THE PRESIDENT BE INVOLUNTARILY REPLACED?

The 25th Amendment of the US Constitution also allows for the forcible removal of a President, including, if he is too ill to designate his authorities or simply refuses to do so

Since the amendment on discharge of duties was ratified in 1967, the VP of US has taken power in only three instances—each of them exceedingly brief. In 1985, when President Ronald Reagan was put under anaesthesia for a colon procedure, he granted his powers to VP George Bush for about eight hours, though he avoided formally invoking the amendment. In 2002 and 2007, President George W Bush temporarily transferred his authorities to VP Dick Cheney during colonoscopies

## ATAL TUNNEL: WORLD'S LONGEST ROAD TUNNEL

Prime Minister Narendra Modi on Saturday inaugurated the strategically-important Atal Tunnel in Rohtang...

**1 THE LONGEST HIGHWAY TUNNEL:** The Atal Tunnel, at 9.02 km, is the longest highway tunnel in the world, which connects Manali to Lahaul-Spiti Valley. It will ensure movement throughout the year. Earlier, the Valley was cut off for about six months each year, owing to heavy snowfall

**2 BUILT IN THE PIR PANJAL RANGE OF THE HIMALAYAS:** The tunnel is built with ultra-modern specifications in the Pir Panjal range of the Himalayas at an altitude of 3,000 metres (10,000 feet) from the Mean Sea Level (MSL)

**3 HORSESHOE-SHAPED:** It is a horseshoe-shaped, single tube double lane tunnel with a roadway of eight metres

### WhatsApp's latest update will let you delete media from other people's phones

**I**n a new update, WhatsApp users can now delete an image, video or gif from somebody else's phone after sending it to them. Called Expiring Media, it makes the media disappear after it has been viewed in a chat. It is similar to Instagram's image sending feature.

#### HOW IT WORKS

- To enable this feature, the sender will have to select the "view once" button, while they are sending the image, video, or the gif file
- When it appears on the phone of the recipient, it is only visible when they are in the chat. When they leave the chat, the message appears, which states, "The media will disappear once you leave the chat"
- If the users return to the chat, a bubble pops up, which says, "view once photo expired"
- The feature is under development

### Priyanka Chopra teases her memoir 'Unfinished' by sharing intriguing clip

**A**ctor Priyanka Chopra Jonas on Friday gave a teaser to her much-awaited memoir, 'Unfinished'. The 38-year-old actor took to Instagram to share an intriguing short clip featuring the posters of her films. The video that starts from a monochromatic picture of her parents, showcases some iconic characters essayed by the actor over the big

screen. The video is created in the form of a film reel, which plays horizontally, in the same fashion as a movie plays in a cinema hall, with the sound of the reel rolling up and down.

- The clip, featuring the posters, chronicle the journey of the actor from the very beginning. It puts on display the poster of 'The Hero: Love Story of A Spy', 'Fashion' 'Mary Kom', 'Dostana', 'Barfi', 'Bajirao Mastani', 'Quantico' and 'Baywatch.' It also summarises the journey of the actor—Bollywood to Hollywood
- Alongside the clip, Priyanka wrote, "This is my story, #unfinished" ■ It was in June 2018 that the star first announced of making her

- memoir, and had said that it "gives you an indescribable sense of accomplishment" when you tick off something from your "bucket list"
- 'Unfinished' will be a collection of personal essays, stories, and observations by the actor, producer, singer, and UNICEF Goodwill Ambassador, Chopra

# WARS, ROWS AND SCANDALS: When the Nobels didn't go as planned

**1** Not awarding the prize can also be an honour. In 1948, several months after the death of Mahatma Gandhi, the Nobel Peace Prize was not awarded, a homage to the Indian pacifist, who never won the prize — widely considered a historic omission. The committee at the time said, "there was no suitable living candidate".

**2** The prize can also be postponed. That was the case in 2018, when a scandal engulfed the Swedish Academy, which selects the literature prizewinner. The 2018 prize was awarded instead the following year to Polish author, Olga Tokarczuk.

**3** While Sweden remained neutral during the wars, the Nobel committees refrained from awarding the prizes, especially during World War II. Both moral and logistical reasons were cited, as well as the fact that the committees no longer had access to the scientific publications. The peace prize was not awarded between 1939 and 1945—the 1944 prize was awarded retroactively to the Red Cross.

**5** The celebratory banquet traditionally held after the December 10 prize ceremony at Stockholm's City Hall was cancelled in 1956 to avoid inviting the Soviet ambassador because of the repression of the Hungarian Revolution. An unofficial, smaller dinner, was organised instead.

**4** In 1924, the organisers cancelled the formal prize ceremonies in Stockholm and Oslo because of a combination of ailing laureates, including Polish writer Wladyslaw Reymont, and the fact that the chemistry and peace prizes were not awarded. That was the only time the ceremonies got cancelled in peacetime.

In total, 49 prizes have not been awarded since the first Nobels in 1901, most of them in the field of peace (16 times)

**In the 1930s, three German scientists were awarded Nobels:** Richard Kuhn (1938) and Adolf Butenandt (1939) in chemistry, and Gerhard Domagt (1939) in medicine. But Hitler, outraged over the prize to Von Ossietzky (Peace Prize), barred any German from accepting a Nobel, and they were forced to decline their prizes. They received their Nobels after the war

### I am a pledged organ donor: Amitabh Bachchan

**A**ctor Amitabh Bachchan has said that he has pledged to donate his organs. Bachchan, 77, took to Instagram recently, and posted a picture from the sets of his game show, 'Kaun Banega Crorepati' with a green ribbon to mark the gesture. "The distinction of the wear of the green ribbon. I am a pledged organ donor! Bearing the giving of life to another," the actor captioned.

Wars, jailed laureates, and diplomatic rows have occasionally put the brakes on the Nobel prizes over the years. This time it is the coronavirus pandemic that has thwarted plans. Here are some previous occasions when the Nobels were stalled..

# Twelve ways to be kind this week

A 5th grader recently won '2020 Doodle for Google' for spreading kindness! Sharon Sara who is in the fifth grade in Texas has won the 2020 Doodle for Google contest who will receive a \$30,000 college scholarship from the tech giant. The Doodle made by Sara, titled 'Together As One,' highlighted the importance of inclusion and acceptance, and was inspired by her personal experiences with friendship and her strong commitment to spreading kindness.

"I thought about my personal experiences. People have not wanted to be my friend because of how I look, so I decided to draw what I do! No matter what people look like, you look on the inside and then decide if you want to be their friend," Sara said. "Kindness to me means to not look at someone from the outside, but look at their personality, and be open to their friendship".

### #endcolourism

Suhana Khan shares a post on being called 'kaali' and what's wrong with our society!

There's a lot going on right now and this is one of the issues we need to fix!! this isn't just about me, it's about every young girl/boy who has grown up feeling inferior for absolutely no reason. Here are just a few of the comments made about my appearance. I've been told I'm ugly because of my skin tone, by full grown men and women, since I was 12 years old. Other than the fact that these

are actual adults, what's sad is that we are all Indians, which automatically makes us brown - yes we come in different shades but no matter how much you try to distance yourself from the melanin, you just can't. Hating on your own people just means that you are painfully insecure. I'm sorry if social media, Indian matchmaking or even your own families have convinced you, that if you're not 5'7 and fair you're not beautiful. I hope it helps to know that I'm 5'3 and brown and I am extremely happy about it and you should be too. #endcolourism Do you agree? What are the ways we can end this colour shaming. # Lose weight by increasing your 'NEAT'

Weight loss isn't a cakewalk. Now what if you were told that you can lose weight simply by increasing your NEAT or non-exercise thermogenic activity? If you are unversed with the term, it involves daily activities that result in energy consumption or calorie burn...

### What exactly is NEAT?

NEAT is the amount of energy spent by the body on various daily activities like eating, sleeping, gardening, typing, singing, climbing stairs or any other household chores. In short, NEAT excludes deliberate exercises. Before we delve deeper, let's understand thermogenesis.

### Thermogenesis

Thermogenesis is the process by which the body produces heat or energy. There are multiple ways in which our body produces energy. Here are some of the major ways.

### EAT (exercise-associated thermogenesis)

The energy released by the body through planned exercise and workout.

### NEAT (Non-exercise activity thermogenesis)

The energy produced as a result of any physical activity done apart from planned exercise, eating and sleeping.

### DIT (Diet-induced thermogenesis)

The energy spent by the body to digest food, metabolise and store it.

### What it entails?

NEAT allows the body to burn more calories while doing daily activities. This does not include workouts, sports or any other form of intentional exercise. NEAT is affected by various factors like age, gender, genetics, body composition, weight and occupation.

People whose daily lives involve more physical activity, tend to have higher NEAT and lower body weight than people who live a sedentary lifestyle.

Weight loss through NEAT is more sustainable than gym-based workouts. It's doable and yields great results that lasts longer than fad diets

## 6 SIMPLE WAYS YOU CAN INCREASE YOUR NEAT

### GET A STANDING DESK

Though the number of calories burned while using a standing desk versus sitting desk is not huge, but you are more likely to move around while you work on a standing desk as compared to sitting down. Many people have even claimed that they got relief from back pain by switching to a standing desk.

### DO SOME STRETCHING WHILE WATCHING TV

We all love to relax on the couch while watching our favourite series. But what if we told you that stretching while watching TV can help increase your NEAT. All you have to do is simply sit on the floor and stretch out your legs, shoulders, back and hands while enjoying your favourite TV show.

### COOKING AT LEAST ONE MEAL FOR YOURSELF

By cooking, we obviously don't mean just throwing something in the microwave. If you do proper cooking (from raw material), you can burn around 200 calories per hour. And an extra 75 calories for cleaning up afterwards. The benefits of cooking on your own are not just limited to this, you get to eat a healthy and nutritious meal too.

### INCREASE YOUR DAILY NUMBER OF STEPS

We walk while doing daily chores in the house. You can increase the steps by parking your car at the farthest spot, walking to the grocery store and taking your dog for a walk. You can also increase your daily steps by simply walking while talking on the phone.

**FIDGETING** Activities that involve repeated tapping of fingers, playing with rings, bouncing of legs and other small movements of hand and feet, impatiently or restlessly, come under fidgeting. Spontaneous physical activities can increase your energy expenditure and control body weight.

Channel your inner **STRENGTH TO STEER** students through troubled times

**C**ovid-19 and the subsequent lockdown are unprecedented. It is hard to fully gauge the impact that they are having on young people's mental health and overall well-being.

Each student's experience of the lockdown is different. For some children it might be safe, even enjoyable. For others, it could be confusing, to say the least.

Schools and teachers have always stood by pupils when they go through rough patches, but the present predicament is marked by amplified challenges. Although we, as educators, have limited knowledge of how to respond to a situation of this magnitude, we can actively assist our youngsters in certain areas.

These range from equipping them to cope with anxiety, uncertainty, illness and bereavement to recognising inequalities as schooling moves towards a more digital format and helping children make this transition.

Some young people may miss the predictable school routine. Over a lengthened period of social distancing, friendships can become strained, as virtual communication replaces interpersonal interaction.

As a school leader, I would encourage my colleagues and industry peers to use the current crisis to transform the school environment by embedding values.

Instil kindness, dignity and well-being at the heart of what you do. Encourage your students to share their experiences and take up creative hobbies that provide an outlet for their feelings. Provide emotional sustenance and academic support. Remember, especially, that one size doesn't fit all!

Nelson Mandela once famously said, "There is no passion to be found in playing small - in settling for a life that is less than the one you are capable of living." That is our message for today. Let us delve into our inner strength and come together courageously as a community, to steer our students through these troubled times.

**Memorable moments with grandparents captured**

**T**he school celebrates Grandparents' Day every year by bringing them to school and making it a memorable day for both children and the grandparents. This year, this was not possible. But we were astonished to be flooded with a variety of rich memorable moments of "Kids with their Grandparents", captured so emphatically.

**AAVISHKAR ACADEMY**

Grandparents are a bundle of love, affection, care and kindness. They have the time and the patience to listen to their grandchildren. It is very important for this generation of children to bond with them. In this fast and dynamic world the bond between the child and the grandparents will be beneficial to both.

playmates, trustworthy friends, resourceful team mates in completing projects and icons for good moral values. They can almost fit into any role. The children will learn to love, to respect, to care for and to share their time with others.

Simple gestures like serving them a glass of water, a sweet good night hug; asking them if they slept well is bound to melt their heart. A morsel of food eaten from grandma's hand is no match to the 5 star dinners in taste, but is full of positive energy and wishes for the child. The child will definitely grow up to be a person who can face any challenge.

**S**herwood Run, a part of the Khelo India programme, was organized on September 27, 2020.

**SHERWOOD HIGH SCHOOL**

The event aimed to take forward the fitness level of the students. It witnessed a huge response from the staff, parents and students. All the participants were dressed brilliantly and enthusiastically took a route of their own choice.

The target was to complete 2 km of running or walking. Students of class VI to VIII completed the target in 18 minutes while the juniors of class V and below completed it in 30 minutes. The programme gave them the pride of accomplishment, confidence and self-esteem associated with finishing a very challenging physical goal... a real choice!

# Is T20 format **TILTED** in favour of the

# BATSMEN?

Batsmen dominating proceedings in the shorter formats of the game has become the norm now. That's why, there is a growing clamour to restore parity between the bat and ball

### Suggested changes to T20 cricket - Warne

I would improve T/20 cricket by:

1. Boundaries as big as possible at each venue & on small grounds keep grass on the outfield long
2. Bowlers a max of 5 overs not four
3. Pitch must = day 4 test match pitch & not be a flat rd As we all want a contest between bat & ball not just 6's

Shane Warne, former Aus player

### Get rid of leg byes

Like it Warnster (Shane Warne) the only thing you forgot which I've been saying for a while is get rid of leg byes. It should be a dead ball. Don't reward the batting team for missing the ball.

Mark Waugh, former Aus player

### For women cricket - smaller upper limit on ball diameter

Please can I add for women's cricket - smaller upper limit on ball diameter. And in women's cricket - pitch is so important. Need pace in it always and fast outfield

Isa Guha, commentator

### Everything favours the batsman

At the moment it's all about batting. The bowlers, they can't play cricket. A bowler trains hard to do the best for his team, oversteps the front mark and there's a free hit, the powerplays - I'm not for it.

Curtly Ambrose, former WI pacer

### Fields are small

There's so much in favour of batsmen. Fields are small, two new balls, powerplays, bigger bats, the list can go on. A 'no ball' and it's a free hit. I have never seen a rule change favouring bowlers.

Dale Steyn, former SA pacer

### Place limitations on the depth of a bat

The balance may have shifted a little bit too much because sometimes mis-hits are going for six. The bats are so good these days that the sweet spot is much larger than it would have been 10-15 years ago. The ICC will be looking at giving some consideration to placing limitations on the depth of a bat in particular.

David Richardson, former CEO of ICC said in 2015

### The fans deserve it

A score of around 150-160, giving team batting second an equal chance would make for quality viewing. After all, the fans deserve it. Stakeholders must ensure interest is alive.

Krishnamachari Srikkanth, former Indian captain and opener

### Wickets need to be more helpful for bowlers

Wickets need to change; they need to be more helpful for bowlers. In T20s, the greatest of bowlers are being reverse-swept. Three-hundred is no longer competitive in ODIs. There should be at least one format for bowlers to execute skills. Sachin Tendulkar, Ex India cricketer

### There shouldn't be bat restrictions

There shouldn't be bat restrictions because the game's always moving forward. Bat companies are always trying to find a competitive advantage. As long as they're legal, then you can't restrict the size of a bat. Shane Watson, Ex-Aus player

## Karthik should bat after Morgan and Russell: Gambhir

Two-time IPL winning Kolkata Knight Riders captain Gautam Gambhir believes current skipper Dinesh Karthik should bat after Eoin Morgan and Andre Russell and also wants Sunil Narine to be

dropped from the top of the order. Apart from a 23-ball 30 coming at no 3 against Mumbai Indians, Karthik has failed to produce any significant score despite batting ahead of Morgan so far in the tournament.

Rahul Tripathi goes up the order, Dinesh Karthik plays at no 6, not before Morgan and not before Russell as well. Probably Sunil Narine goes to bat at 8 or 9. If Morgan bats no 4 and Russell at 5 and Dinesh Karthik to follow

Gautam Gambhir, former Indian cricketer
